Arrays and Repeated Addition

CCSS 2.OA.C.4

Name

Date

Write the repeated addition and the total.

1. An array has 2 rows with 4 dots in each row. Write the repeated addition and the total.

2. An array has 3 rows with 5 dots in each row. Write the repeated addition and the total.

3. An array has 4 rows with 2 dots in each row. Write the repeated addition and the total.

4. An array has 2 rows with 5 dots in each row. Write the repeated addition and the total.

5. An array has 4 rows with 4 dots in each row. Write the repeated addition and the total.

6. An array has 4 rows with 5 dots in each row. Write the repeated addition and the total.

7. An array has 5 rows with 3 dots in each row. Write the repeated addition and the total.

8. An array has 5 rows with 5 dots in each row. Write the repeated addition and the total.

9. An array has 3 rows with 2 dots in each row. Write the repeated addition and the total.

10. An array has 3 rows with 4 dots in each row. Write the repeated addition and the total.

11. An array has 2 rows with 3 dots in each row. Write the repeated addition and the total.

12. An array has 4 rows with 3 dots in each row. Write the repeated addition and the total.

Answer Key

Arrays and Repeated Addition

1. $4 + 4 = 8$

2. $5 + 5 + 5 = 15$

3. $2 + 2 + 2 + 2 =$

4. $5 + 5 = 10$

8

5. $4 + 4 + 4 + 4 =$
16

6. $5 + 5 + 5 + 5 =$
20

7. $3 + 3 + 3 + 3 +$
3 = 15

8. $5 + 5 + 5 + 5 +$
5 = 25

9. $2 + 2 + 2 = 6$

10. $4 + 4 + 4 = 12$

11. $3 + 3 = 6$

12. $3 + 3 + 3 + 3$
= 12
