Arrays and Repeated Addition

CCSS 2.OA.C.4

Name

Date

Write the repeated addition and the total.

1. An array has 4 rows with 5 dots in each row. Write the repeated addition and the total.

2. An array has 2 rows with 3 dots in each row. Write the repeated addition and the total.

3. An array has 5 rows with 2 dots in each row. Write the repeated addition and the total.

4. An array has 3 rows with 4 dots in each row. Write the repeated addition and the total.

5. An array has 2 rows with 4 dots in each row. Write the repeated addition and the total.

6. An array has 3 rows with 3 dots in each row. Write the repeated addition and the total.

7. An array has 5 rows with 3 dots in each row. Write the repeated addition and the total.

8. An array has 3 rows with 5 dots in each row. Write the repeated addition and the total.

9. An array has 4 rows with 3 dots in each row. Write the repeated addition and the total.

10. An array has 5 rows with 4 dots in each row. Write the repeated addition and the total.

11. An array has 4 rows with 4 dots in each row. Write the repeated addition and the total.

12. An array has 5 rows with 5 dots in each row. Write the repeated addition and the total.

Answer Key

Arrays and Repeated Addition

- | | | | |
|-----------------------------------|--|---------------------------------------|--|
| 1. $5 + 5 + 5 + 5 =$
20 | 2. $3 + 3 = 6$ | 3. $2 + 2 + 2 + 2 +$
2 = 10 | 4. $4 + 4 + 4 = 12$ |
| 5. $4 + 4 = 8$ | 6. $3 + 3 + 3 = 9$ | 7. $3 + 3 + 3 + 3 +$
3 = 15 | 8. $5 + 5 + 5 = 15$ |
| 9. $3 + 3 + 3 + 3 =$
12 | 10. $4 + 4 + 4 + 4$
+ 4 = 20 | 11. $4 + 4 + 4 + 4$
= 16 | 12. $5 + 5 + 5 + 5$
+ 5 = 25 |
