Arrays and Repeated Addition

CCSS 2.OA.C.4

Name .....

Date .....

*Write the repeated addition and the total.*

1. An array has 3 rows with 3 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

2. An array has 5 rows with 3 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

3. An array has 3 rows with 2 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

4. An array has 4 rows with 4 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

5. An array has 3 rows with 5 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

6. An array has 2 rows with 2 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

7. An array has 5 rows with 4 dots in each row. Write the repeated addition and the total.

\_\_\_\_\_

8. An array has 5 rows with 2 dots in each row. Write the repeated addition and the total.

---

9. An array has 2 rows with 4 dots in each row. Write the repeated addition and the total.

---

10. An array has 4 rows with 2 dots in each row. Write the repeated addition and the total.

---

11. An array has 4 rows with 5 dots in each row. Write the repeated addition and the total.

---

12. An array has 5 rows with 5 dots in each row. Write the repeated addition and the total.

---

# Answer Key

Arrays and Repeated Addition

---

1.  $3 + 3 + 3 = 9$

2.  $3 + 3 + 3 + 3 + 3 = 15$

3.  $2 + 2 + 2 = 6$

4.  $4 + 4 + 4 + 4 = 16$

5.  $5 + 5 + 5 = 15$

6.  $2 + 2 = 4$

7.  $4 + 4 + 4 + 4 + 4 = 20$

8.  $2 + 2 + 2 + 2 + 2 = 10$

9.  $4 + 4 = 8$

10.  $2 + 2 + 2 + 2 = 8$

11.  $5 + 5 + 5 + 5 = 20$

12.  $5 + 5 + 5 + 5 + 5 = 25$
